

Abdelrahman Mohamed

Front-End Developer | portfolio: mainportfolio-rep.netlify.app

Mahalla Al-Kubra, Egypt | +201149270139 | abdomohamed@gmail.com

Objective

- A passionate Frontend Developer with solid experience in building responsive, multi-language websites using React, JavaScript, and Tailwind CSS. I'm seeking opportunities to apply my skills in UI/UX and modern web development, with a focus on clean design and performance.

Education

Bachelor of Commerce – Specialization in Information Systems

Delta Higher Institute for Computers and Information, Mansoura — Graduated: [2025]

- Major: Information Systems
- Minor: Web Development (Practical)
- Notes: Academic focus on systems and programming; practical experience focused on frontend development for web platforms.

Skills

- Web Development: React.js, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap
- Routing & Localization: React Router, i18next
- Design: Responsive Design, UI/UX Principles
- Tools: Git, GitHub, VS Code, ChatGPT
- Languages: Arabic (Native), English (Professional)

Experience

Freelance Frontend Developer — Remote2023 – Present

- Developed landing pages and full web interfaces for clients on Shopify, Wix, and Nicepage
- Implemented responsive layouts using Tailwind and Bootstrap
- Integrated multi-language support using i18next in React projects
- Used AI tools (like ChatGPT) for research, content planning, and design ideas

Certificates

- Frontend Development Diploma
